Encompass® Group, LLC Offers The PerfectCLEAN® Environmental Cleaning System - Infection Prevention Through Superior Cleaning

McDonough, GA–(July 2011)–Encompass® Group, LLC offers The PerfectCLEAN® Environmental Cleaning System to deliver unrivaled performance in the removal and trapping of the pathogens that can cause Hospital Acquired Infections (HAIs).

The System includes the All Purpose Wiper to penetrate crevices in surfaces to trap and remove contaminants; the Super Silky Wiper, ideal for cleaning plastic, glass, chrome, and other polished surfaces; Flat Mops, Dust/Fringe Mops and Tube Mops, along with coordinating hardware that includes Flat Mop Frames, Easy Grip Ergonomic Handles, Easy Grip Telescopic Handles, and accessories, such as Flexible Dusters, and Flexible Duster Covers.

Unique micro-denier fiber is used in all PerfectCLEAN products–the highest percentage of micro-denier fiber available in the industry. All designed to work hand-in-hand with any cleaning solution.

Maintaining a safe and clean environment is an essential part of caring for hospitalized patients today. Each year, 1.2 million patients are affected by HAI's, resulting in approximately 99,000 deaths. The costs to treat HAI's are growing. Environmental hygiene – cleaning – is the first line of defense in any infection prevention program.

The PerfectCLEAN Environmental Cleaning System offers superior efficacy and CDC compliance. The products can be washed in chlorine bleach, are anti-microbial and color-coded to help distinguish between bathroom or patient room, offer excellent ROI through superior durability, and are all backed by an exceptional level of professional expertise.
